NOTE:

1) For any rear brake application with (V), it means this rear brake kit comes with the inner drum to retain the O.E.M handbrake function.

2) For any rear brake application with (X), it means this rear brake kit does **NOT** come with the inner drum, so the O.E.M handbrake function can not be retained.

3) In some vehicle models, O.E.M handbrake function can NOT be retained once a rear upgrade brake kit is fitted to a car (this can be found in most VAG models). Now we have an easy bolt-on "Handbrake Adaptor System" available to make the O.E.M handbrake function work on those vehicles.

* The "Handbrake Adaptor System" is not available for all models. For any rear brake application with (★), it means the "Handbrake Adaptor System" can be applied to it.

4) For any rear brake application with (EB), it means O.E.M brake design is electronic brake.

5) For any rear brake application with high-lighted gray back ground, it means this rear brake kit is specially customized. Please contact our sales department for details before purchasing.
